On Behalf of Our Children:

Wisconsin's Racial Disparities & the Call of the Gospel

Wisconsin ranks last among the 50 states in the well-being of African American children. This study considers issues of racial equity in our state in light of the gospel. Designed to be easily used in an adult education class, for a mid-week series or half day retreat.

Loving our Interfaith Neighbors

This resource leads participants through 6 sessions on the why and how of building new and deeper relationships with interfaith neighbors, and invites local churches to join with them in addressing issues of common concern.

Hunger at Our Doorstep

Take a faith perspective on basic questions of charity and justice: Who is hungry in Wisconsin? What are hunger's impacts? What can be done about hunger? What does the Bible say about hunger? What can your church do to help your hungry neighbors?

Becoming Welcoming Communities

Explore how the biblical story continually shows God's concern for the migrant and the outcast, and reflect on what your community's next steps might be. Ready for more? We are engaged in a collaborative effort to address immigration issues, focused on education, advocacy, and building understanding between older and newer immigrant communities using the tools of our faith.
